## 2017 PARADISUS PLAYA DEL CARMEN

Join AgriGold on a trip to a city located along the Caribbean Sea in the state of Quintana Roo in Mexico. It is located within the Riviera Maya, which runs from south of Cancún to Tulum and the Sian Ka'an biosphere reserve. Playa del Carmen boasts a wide array of tourist activities.

### PLAYA DEL CARMEN

Originally a small fishing town, tourism to Playa del Carmen began with the passenger ferry service to Cozumel, an island across the Cozumel Channel and a world famous scuba diving destination.

The area's nerve center is El Zócalo, and similar to Mediterranean beachfront towns like Nice, the funky little public square is within walking distance of the beach. Just off the square and running parallel with the shore, La Quinta Avenida features 20 blocks worth of delicious eateries and quirky shops.

Playa del Carmen has recently undergone extreme rapid development with new luxury residential condominium buildings, restaurants, boutiques and entertainment venues. Tourist activity in Playa del Carmen centers on Quinta Avenida, or Fifth Avenue, which stretches from Calle 1 norte to Calle 40. A pedestrian walkway located just one or two blocks inland from the beach, Fifth Avenue is lined with hundreds of shops, bars and restaurants. There are many small boutique hotels on and just off Fifth Avenue and on the beach.

**AREA ATTRACTIONS & ACTIVITIES**

The Riviera Maya's craggy limestone shore mixes long stretches of sugar-white, palm-fringed beaches with grottos and tropical coves. The world's second longest barrier reef lies just off shore, while underground rivers, or cenotes, caves and jungles lure adventure-lovers. Exotic animal life inhabits the areas scrub rain forests, affording visitors nature-bound excursions as well. Eco-adventure attractions showcase the region's unique ecology. The region features the action of adventure sports including kayaking, scuba diving, snorkeling and deep sea fishing, the temptations of shopping, the delights of gourmet dining and proximity to many of Mexico's most significant Mayan archeological sites.

**Additional activities abound that are only available in this paradise:**

- Swim alongside Tulum, the only Mayan archaeological site located by the sea
- Spend a day of amazement interacting with Mexican culture in one of the most spectacular theme parks in the world, Xcaret
- Snorkel in the largest natural aquarium in the world, Xel-Ha
- Explore the mystery of the Mayan caves in Aktun Chen
- Return in time and discover a Mayan village
- Discover the underwater world at the largest coral reef on the northern hemisphere
- Relax and experience a Mayan treatment in a spa
- Take the ferry and explore Cozumel
- Play golf on a course that was carved from the jungle

**TULUM**

An important archaeological site of the Mayan Culture, Tulum dates from the Post-Classic period and is the only Mayan settlement ever discovered to be surrounded by a wall and constructed by the sea. Tulum is located 78 miles south of Cancun. During the ride, a guide will explain the interesting Mayan Culture. The city of Tulum was built in honor of the sun. The main structure at the site is The Castle, a pyramid-like building crowned by a temple which commands magnificent views of the Caribbean Sea. Other edifices of interest are the Temple of the Frescoes & Descending God.

**CHICHEN ITZA**

One of the most important Mayan archaeological sites, Chichén Itzá became a regional religious and ceremonial center during the early Post-Classic Maya period. During the panoramic ride through the lush green jungle, on the way to Chichén Itzá, a guide will explain about the interesting Mayan Culture. Among other important structures such as the Sacred Well, the Ball Court, the Temple of the Warriors, the Observatory, you will find the main structure "El Castillo" the pyramid of Kukulcan, site of the famous equinox phenomenon. For cultures in the world, this is an excursion that cannot be missed.

**AKTUN CHEN**

Aktun Chen, in the Maya language means "cave with sinkhole inside", is a natural park extended 600 hectares (2,400 acres) by virgin tropical jungle, and is located centrally in the Riviera Maya, between Akumal and Xel Ha, one hour and 30 minutes from Cancun. The main attraction in the park is a dry cave, 540 meters in length, which has thousands of stalactites and stalagmites, calcium carbonate columns, and tree roots which penetrate the limestone until they reach the subterranean water level. Inside this cave there is a beautiful subterranean "cenote", or water filled sinkhole, of crystalline water with a vault saturated with stalactites.

**XEL-HA**

The ancient Maya named this marvelous place "Xel-Ha" which means where water is born. Xel-Ha is one of nature's perfect creations and a paradise for nature lovers. This extraordinary place is formed by a combination of inlets, lagoons, cenotes and caves that are fed by the sea. The underground fresh water springs and rivers turn Xel-Ha into the world's largest aquarium. Swim or snorkel in the inlet, peacefully navigate the river, sunbathe or walk on the beach, explore the cenotes, discover ancient Mayan murals, be surrounded by fish, birds, butterflies, iguanas, macaws, and more in the world of fun and adventure.

**XENOTES**

The Xenotes Tour includes a visit to four cenotes (sinkholes) where you will enjoy activities such as kayaking, snorkeling, rappelling, zip lines, inner tubes and swimming, with a period of relaxation to enjoy a Glam Picnic, a true moment of adventure in contact with nature. Welcome coffee, chocolate and sweet breads as well as at every Xenote exit, except the one where lunch is served. Non-alcoholic beverages (water and soft drinks) and seasonal fruits reserved en route. Equipment: life jacket, snorkel equipment, rappel gear and/ or inner tube.

Jungle, flora and fauna, archaeological sites, solitary beaches, a turquoise-colored sea with crystal-clear water, the fantasy and warmth of the tropics, the mystery of the Mayan culture are just some of the qualities which have turned the Riviera Maya into the envy of the Caribbean.
